SKELLY AND LOY WELCOMES DOUG MENEELY, GIS ANALYST

As a GIS Analyst for Skelly and Loy, Mr. Doug Meneely performs advanced GIS, analytics, and cartography.

Mr. Meneely has three years of Geographic Information Systems (GIS), specializing in ESRI products. He worked with Chester County Planning Commission on various mapping projects and comprehensive plans, most notably “Landscapes3”, a 10-year Comprehensive Plan for the county, and the “Route 724 Corridor”, an award-winning mapping application created by Mr. Meneely as a tool for developers to identify available parcels designated for development, per the county’s growth policy. Projects that Mr. Meneely is currently working on include US 322 noise analysis, Middlesex MS4, and Marsh Creek Greenway.

Mr. Meneely earned a Bachelor of Science degree in Geographic Information Systems (GIS) from West Chester University. As a study abroad program with West Chester University, he visited the University of Costa Rica (UNA), where in a partner program, collaborated with local professors and geographers to promote education and sustainable living. He also plotted and created a comprehensive story map of the entire trip using Collector for ArcGIS. Mr. Meneely holds a Pilot’s License in Unmanned Aircraft – (UAG), is a member of the American Planning Association (APA).

Enjoying its 51st year, [Skelly and Loy](http://www.skellyloy.com) is an engineering-environmental consulting firm serving public and private sector clients from six Mid-Atlantic offices. Our services include civil, environmental, and mining engineering and permitting activities; National Environmental Policy Act (NEPA) compliance studies; natural resource management and protection; hazardous waste and industrial hygiene studies and remediation planning; and cultural resource studies and documentation.
