SKELLY AND LOY WELCOMES GEOLOGIST PAUL F. WYRWAS, P.G.

HARRISBURG, PA - October 4, 2019 – Paul F. Wyrwas, P.G., is an Environmental Specialist, responsible for Phase I, Phase II, and Phase III Environmental Site Assessment (ESA) Reports. He is currently working on several PennDOT bridge projects.

Mr. Wyrwas is a professional geologist with more than 30 years of experience in petroleum operations, project management, field supervision, hydrogeological investigations, groundwater monitoring programs, geotechnical investigations, preparation of permits, procurement of groundwater and soil remediation programs, implantation of remedial operation and maintenance programs. He has performed and managed several hundred projects in retail petroleum sites and chlorinated solvent sites at bulk terminals, pipelines, and refineries in Georgia, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Virginia, and West Virginia. He was an O&G Inspector for Cambria, Somerset and southern Indiana Counties of Pennsylvania. Fieldwork included inspection of oil and gas drilling and underground storage operations to determine and enforce compliance with state laws and regulations.

Mr. Wyrwas earned a Bachelor of Science degree in Geology from Slippery Rock University, and a Master of Science degree in Geology from Akron University. He has been a Registered Professional Geologist in Pennsylvania since 2002.

Celebrating its 50th year, [Skelly and Loy](http://www.skellyloy.com) is an engineering-environmental consulting firm serving public and private sector clients from six Mid-Atlantic offices. Our services include civil, environmental, and mining engineering and permitting activities; National Environmental Policy Act (NEPA) compliance studies; natural resource management and protection; hazardous waste and industrial hygiene studies and remediation planning; and cultural resource studies and documentation.
